Note: A. Indicates number of employees B. Indicates percentage to total number of employees of that category

1. Percentage has been calculated in four decimal points

2. In cases where even the fourth decimal does not catch the percentage, no representation of the community is indicated in the perage column of the table

3. As the percentage is rounded at the 4<sup>th</sup> decimal point, the totals may not tally in all the cases

\* Refer Appendix I (a)
