**ORDER**

The Executive Director , Suchitwa Mission as per the letter read above, has requested approval for constituting a dedicated Public - Private Partnership Cell (PPP) within Suchitwa Mission to integrate private sector participation effectively in the waste management activities, that can address the complex challenges in waste management across the State. It is also informed that the proposed PPP Cell will serve as a nodal agency to develop comprehensive waste management strategies, attract private investments, and coordinate with Local Self Government Institutions.

2. Government have examined the proposal in detail . The state is nearing completion and saturation with respect to door to door collection of non bio waste and creation of new institutional facilities. Moreover, in LWM, due to protests, huge project cost and clearances, the state is moving

very slow. Hence PPP projects are envisaged in the categories such as Centralized CBG plants, mainly in urban clusters, FSTPs in identified clusters of 15 sq.km and Waste to Energy Plants. Hence Shuchitwa Mission needs to augment its capacity by creating a Public - Private Partnership Cell cell on the above lines.

3. In the above context Government are pleased to accord sanction to constitute a Public - Private Partnership Cell within Suchitwa Mission as a technical mechanism to provide expert advice and assistance to Local Self-Government Institutions to initiate projects in the field of waste management on PPP model.

4. Sanction is also accorded to the Executive Director, Suchitwa Mission for the appointment of the Director through nomination, and further scrutiny at Government level and for the appointment of other staff after following due procedure as per law. Executive Director, Suchitwa Mission shall fix the remuneration of the Director and staff of the PPP Cell with the concurrence of Government.
